PROJECTS

Alarm Clock 1   *HTML, CSS, JS*

- These blocks of code in the text editor you have and save it as index to create this **HTML**
- We will give our alarm clock body's backdrop a light blue colour by using the **body tag**
- Using **javascript ideas** we will now add styles to our HTML components, which will be added to our external CSS file.
- Using HTML, CSS, JS

Book Order Website 2   *HTML, CSS, JAVASCRIPT*

- An **online book order** form helps you sell your books on the internet with great ease.
- Published websites For gaining some downloads and an average star review .
- In many ways, e-Commerce works similarly to brick-and-mortar stores, except online
- Collaborated with Minecraft server administrators to suggest features and get feedback about the web
